

SENIOR ELECTRICAL ENGINEER at CMTA

FULL-TIME | ON-SITE IN ANNAPOLIS, MARYLAND | +10 YEARS OF EXPERIENCE IN MECHANICAL ENGINEERING

Job Summary

As a Senior Electrical Engineer at CMTA, you will lead the design and implementation of electrical systems for high performance, energy-efficient buildings. This role requires a deep technical expertise in electrical engineering within a MEP consulting framework, combined with strong project management initial concept through to completion, ensuring both invovation and fractionality in all electrical designs.

Primary Functions

- · Design electrical systems including power distribution, lighting, lighting controls, emergency power, and UPS.
- · Lead a team of engineers in the planning and detailed design of various projects.
- · Read and interpret blueprints, technical drawings, and schematics.
- Attend client meetings and provide expert consultations to ensure design specifications and conformity with building codes.
- Manage project documentation, review contractor submissions, and ensure designs meet contract specifications.
- · Research and analyze design proposals to assess project feasibility and cost.

Education/Experience

- · Bachelor's Degree: in Electrical Engineering or a related field from an accredited institution.
- Minimum 10 Years of Electrical Engineering: Demonstrated experience in MEP consulting engineering, focusing on electrical systems for various building types.
- Project Management: Extensive experience managing large-scale electrical engineering projects from conception through completion.
- Certifications:
 - PE License: Active professional engineering license, signifying recognized competence in the field of electrical engineering.
 - Additional Certifications (preferred, not required): LEED Accredited Professional/ Certified Energy Manager (CEM)

Compensation

CMTA offers a competitive compensation package for the Senior Electrical Engineer position, including a competitive base salary, a comprehensive benefits package that covers multiple health, financial, and personal benefits.
